Tylö Elysée.

A luxurious steam room that meets the highest criteria for form and function. The perfect complement to public bathing facilities in hotels, spas and corporate hospitality suites – and a dream come true in most homes. Tylö Elysée comes in many different sizes and styles (see pages 112–113 for details).

Made of high-tech, vacuum-formed, special-grade white plastic for a rigid, steamtight construction. Supplied in ready-to-assemble wall and roof sections with integral seating and a recessed downlight above each seat. The door is made from tinted, tempered safety glass in a sturdy frame with handles of anodised aluminium. Transformer for lighting, air outlet vent and all assembly hardware included.

Simply add your choice of steam generator and control panel to complete (see pages 114–115).

Lots of optional extras

- Wall/seat modules may be replaced by a glass section to allow more light to enter.

- All rooms may also be equipped with a service wall, with shelf compartments and fittings for mixer tap, shower head and riser rail. The service wall may be ordered instead of the corresponding wall/seat module at no extra cost. Do bear in mind, however, that this will reduce the number of seats in the steam room.
- Steam rooms with a floor area of up to 4 sq.m. may be supplied with a floor tray of vacuum-formed white plastic (except for F/FC when fitted with the optional glass front).

OPTIONAL ACCESSORIES

Steam Door 99 G

Specially designed for wheelchair access with extra wide opening, no raised threshold and a stainless steel protective edge around the glass door leaf. See pages 118–119 for more information about Tylö doors.

Floor tray

Vacuum-formed, white, special-grade plastic, with integral waste outlet, water trap and adjustable legs. May be used with all Elysée steam rooms from model 2 D to model 7 F with max. size 212 x 193 cm (except for F/FC when fitted with the optional glass front).

Glass wall

Smoked, tempered safety glass in a frame

of natural anodised aluminium. Each glass wall section replaces one wall/seat section. May be ordered instead of the corresponding wall/seat section at no extra charge.

Service section Basic

Integral shelf compartments. Made of vacuum-formed, special-grade white plastic. May be ordered instead of the corresponding wall/seat section in plastic at no extra charge. See page 116.

Service section Complete

Fully equipped vacuum-formed wall section with soap/shampoo compartments, jet nozzles for water massage, thermostatically controlled mixer tap, shower head and riser rail. See also page 116.

Tylö Fresh

Electronic fragrance dispenser. Details page 117.

Steam Clean

Cleaning/disinfecting equipment. Details page 117.

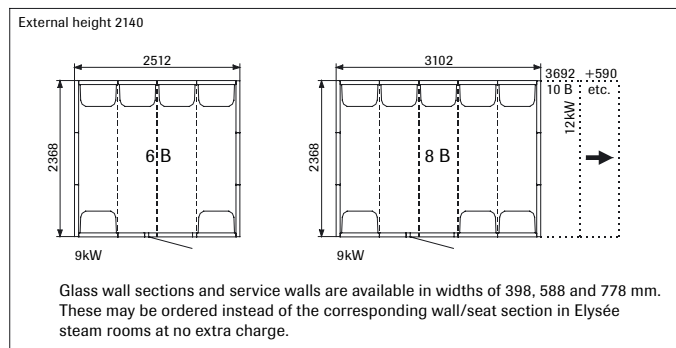

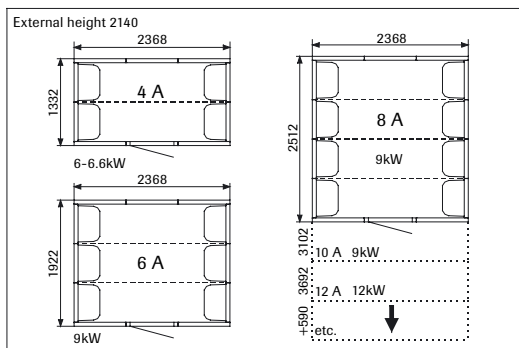

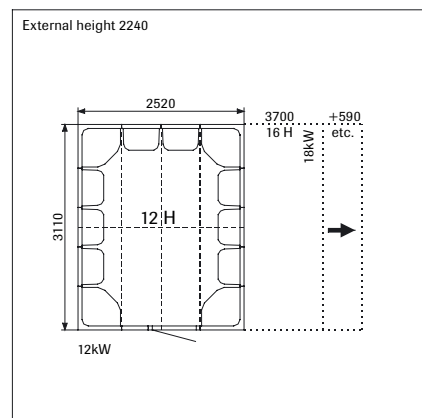

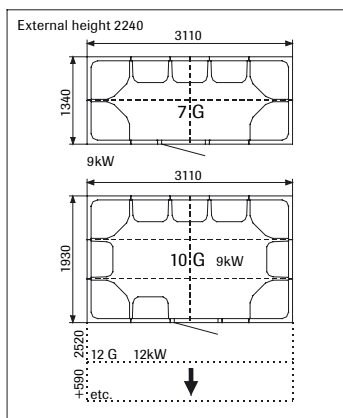

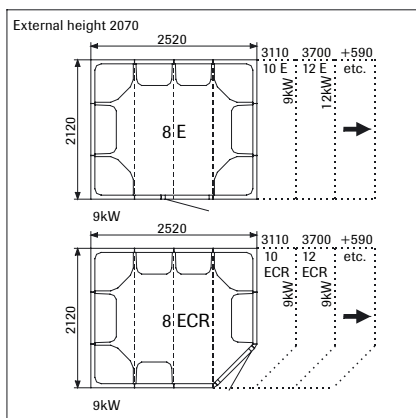

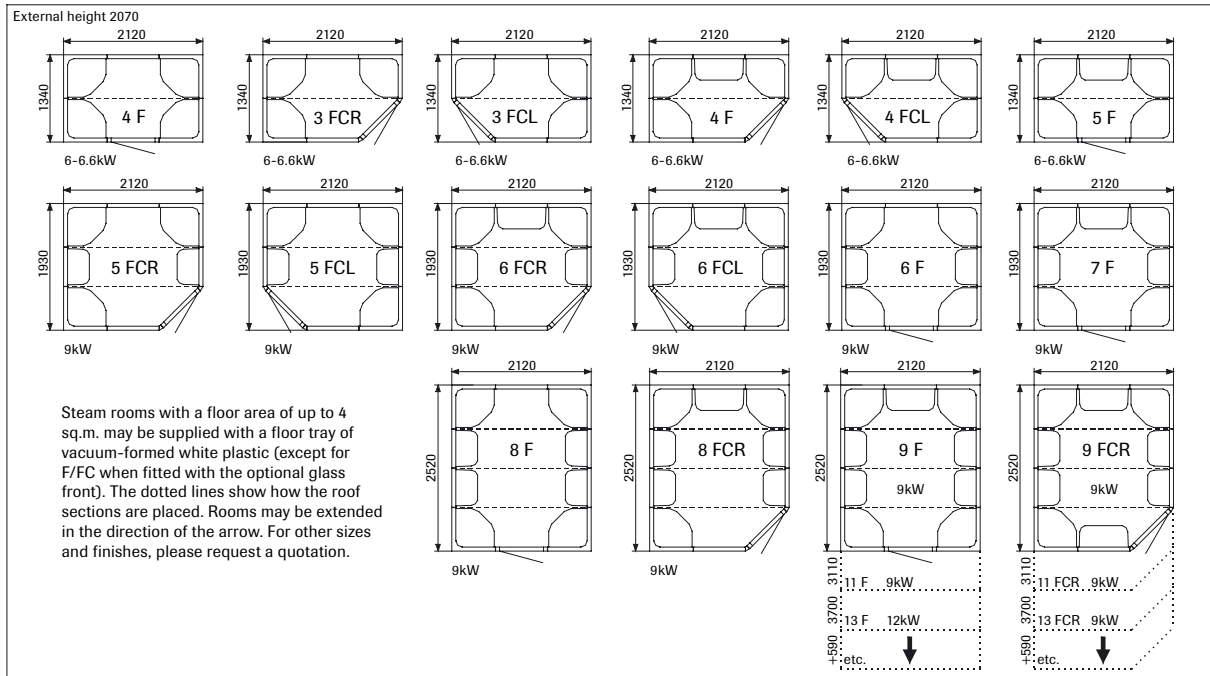

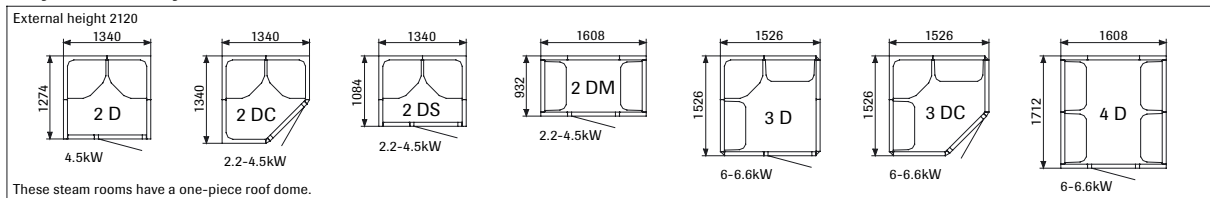

Freedom of choice is yours – by design.

Here you have a bird's eye view of all our complete, prefabricated steam rooms. You can see the sizes and the layout of the interior fittings. All our steam rooms can also be installed mirror fashion. You can also see which standard wall sections can be replaced by glazed sections. The required output of the steam generator is given below each sketch.

Layouts for Elysée

See current price list for article number for each size.
